 - Children are not permitted to use personal mobile or smart devices whilst on the school/setting site. Where these are required, for example in UKS2 for safety reasons

when children/young people are transporting to and from school/setting, devices should be turned off and handed into the class teacher or TA in the morning. They can then be collected at the end of day. Children and parents must have completed and agreed to the mobile phone use policy.

- Lunsford Primary School expects children's personal mobile or smart technology devices to be kept safe and secure when on site. This means:
 - Handing into the class teacher or TA in the morning
 - If a child/pupil/student needs to contact their parents or carers whilst on site, this must be done via the school office
 - Parents are advised to contact their child via the school office

This may result in the withdrawal from either that examination or all examinations.

6.1 Searching, screening and confiscation of electronic devices

- Electronic devices, including mobile phones, can contain files or data which relate to an offence, or which may cause harm to another person. This includes, but is not limited to, indecent images of children, pornography, abusive messages, images or videos, or evidence relating to suspected criminal behaviour.
- Where there are any concerns regarding children's use of mobile or smart technology or policy breaches, they will be dealt with in accordance with our existing policies, including anti-bullying, child protection, online safety and behaviour.
- Staff may confiscate a child's personal mobile or smart technology device if they believe it is being used to contravene our child protection or behaviour policy.
- Personal mobile or smart technology devices that have been confiscated will be held in a secure place (school office) and released to parents/carers at the end of the day after a discussion with the headteacher.
- Where a concern involves a potentially indecent image or video of a child, staff will respond in line with our child protection policy and will confiscate devices, avoid looking at any content, and refer the incident to the DSL (or deputy) urgently as they will be most appropriate person to respond.

- If there is suspicion that data or files on a child's personal mobile or smart technology device may be illegal, or may provide evidence relating to a criminal offence, the device will be handed over to the police for further investigation
- If deemed to be necessary and appropriate, searches of personal mobile or smart technology devices may be carried out in accordance with our behaviour policy and the DfE [‘Searching, Screening and Confiscation’](#) guidance.
- Staff will respond in line with our child protection policy and follow the most appropriate safeguarding response if they find images, data or files on a pupil's electronic device that they reasonably suspect are likely to put a person at risk.

- The DSL (or deputy) will be involved without delay if staff believe a search of a pupil's personal mobile or smart technology device has revealed a safeguarding risk.
- In exceptional circumstances and in accordance with our behaviour policy and the DfE [‘Searching, Screening and Confiscation’](#) guidance, the headteacher or authorised members of staff may examine or erase data or files if there is a good reason to do so.
 - In determining whether there is a ‘good reason’ to examine images, data or files, the headteacher or an authorised member of staff will need to reasonably suspect that the images, data or files on the device has been, or could be used, to cause harm, undermine the safe environment of the school and disrupt teaching, or be used to commit an offence.
 - In determining whether there is a ‘good reason’ to erase any images, data or files from the device, the member of staff should consider whether the material found may constitute evidence relating to a suspected offence. In those instances, the data or files should not be deleted, and the device must be handed to the police as soon as it is reasonably practicable.
 - If the data or files are not suspected to be evidence in relation to an offence, the headteacher or an authorised member of staff may delete the images, data or files if the continued existence of the data or file is likely to continue to cause harm to any person and the pupil and/or the parent refuses to delete the data or files themselves.
- If the headteacher or a member of staff finds any data or files that they suspect might constitute a specified offence, they will be delivered to the police as soon as is reasonably practicable.

 - Any arrangements regarding agreed visitor access to mobile/smart technology will be documented and recorded by the school. This may include undertaking appropriate risk assessments if necessary.
